

VISPRING

Luxury Beds - London 1901

THE
FINER DETAILS

THE FINER DETAILS, All in one place

The Finer Details is a quiet companion to our main brochure, a place where precision and practicality meet. Within these pages, you'll find the finer details: the materials that cradle you, the craftsmanship that sets us apart, and the choices that make a Vispring bed uniquely yours. It's not about numbers and specifications; it's about the elements that come together to create something greater than the sum of its parts. Because when it comes to choosing your perfect bed, a little detail makes all the difference.

Find Your Comfort

Vispring presents four mattress tensions: Soft, Medium, Firm, and Extra Firm. While many believe that firmer is always better, comfort is a deeply personal experience. The right tension cradles your spine in perfect alignment, ensuring a restful night's sleep. While personal preference plays a role, we strongly recommend using your body weight as a key guide to

The right tension supports your spine, while the feel envelops you in comfort.

ensure the best fit and comfort.

A Vispring mattress has two important features: tension and feel. Tension is the firmness of the mattress, which comes from the springs inside and provides the support your body needs. Feel, on the other hand, is the softness and comfort you experience, created by a mix of natural materials like wool, cotton, horsehair, and silk. These materials make the surface soft, breathable, and cosy. When combined, the right level of tension and feel work together to give you a mattress that offers both support and comfort, ensuring a restful sleep experience.

To simplify your selection, we've created 'The Feel Index', a

visual guide that helps you easily distinguish between soft and firm mattresses. This way, you can find the perfect balance of support and plushness to suit your needs.

Understanding that comfort is subjective, Vispring offers the option of different spring tensions on each side of the mattress, whether soft and medium, medium and firm, or firm and extra firm. Additionally, we offer split tension for couples with differing comfort needs, custom sizes to perfectly fit your space, and essentially, if you can dream it, we can create it. Whatever your ideal sleep experience is, we're here to bring it to life.

The secret to ultimate comfort lies in our divans. Crafted from slow-grown Northern European timber, each divan features body-responsive pocketed springs and premium natural fibre fillings. This expert construction adapts to your movements, ensuring years of exceptional resilience and support. Even on its own, a Vispring divan surpasses many mass-produced mattresses. But for the ultimate sleep experience, pairing a Vispring mattress with a Vispring divan creates the perfect foundation for a lifetime of quality rest.

1

How do you like your mattress to feel?

This is all about comfort. The feel of each mattress comes from a carefully chosen blend of natural materials, such as wool, cotton, horsehair, and silk. These materials shape the surface comfort, whether you prefer a softer, medium, or firmer touch.

Every Vispring mattress offers a distinct feel, which is captured in The Feel Guide. It illustrates how each unique combination of natural fillings affects the overall comfort.

2

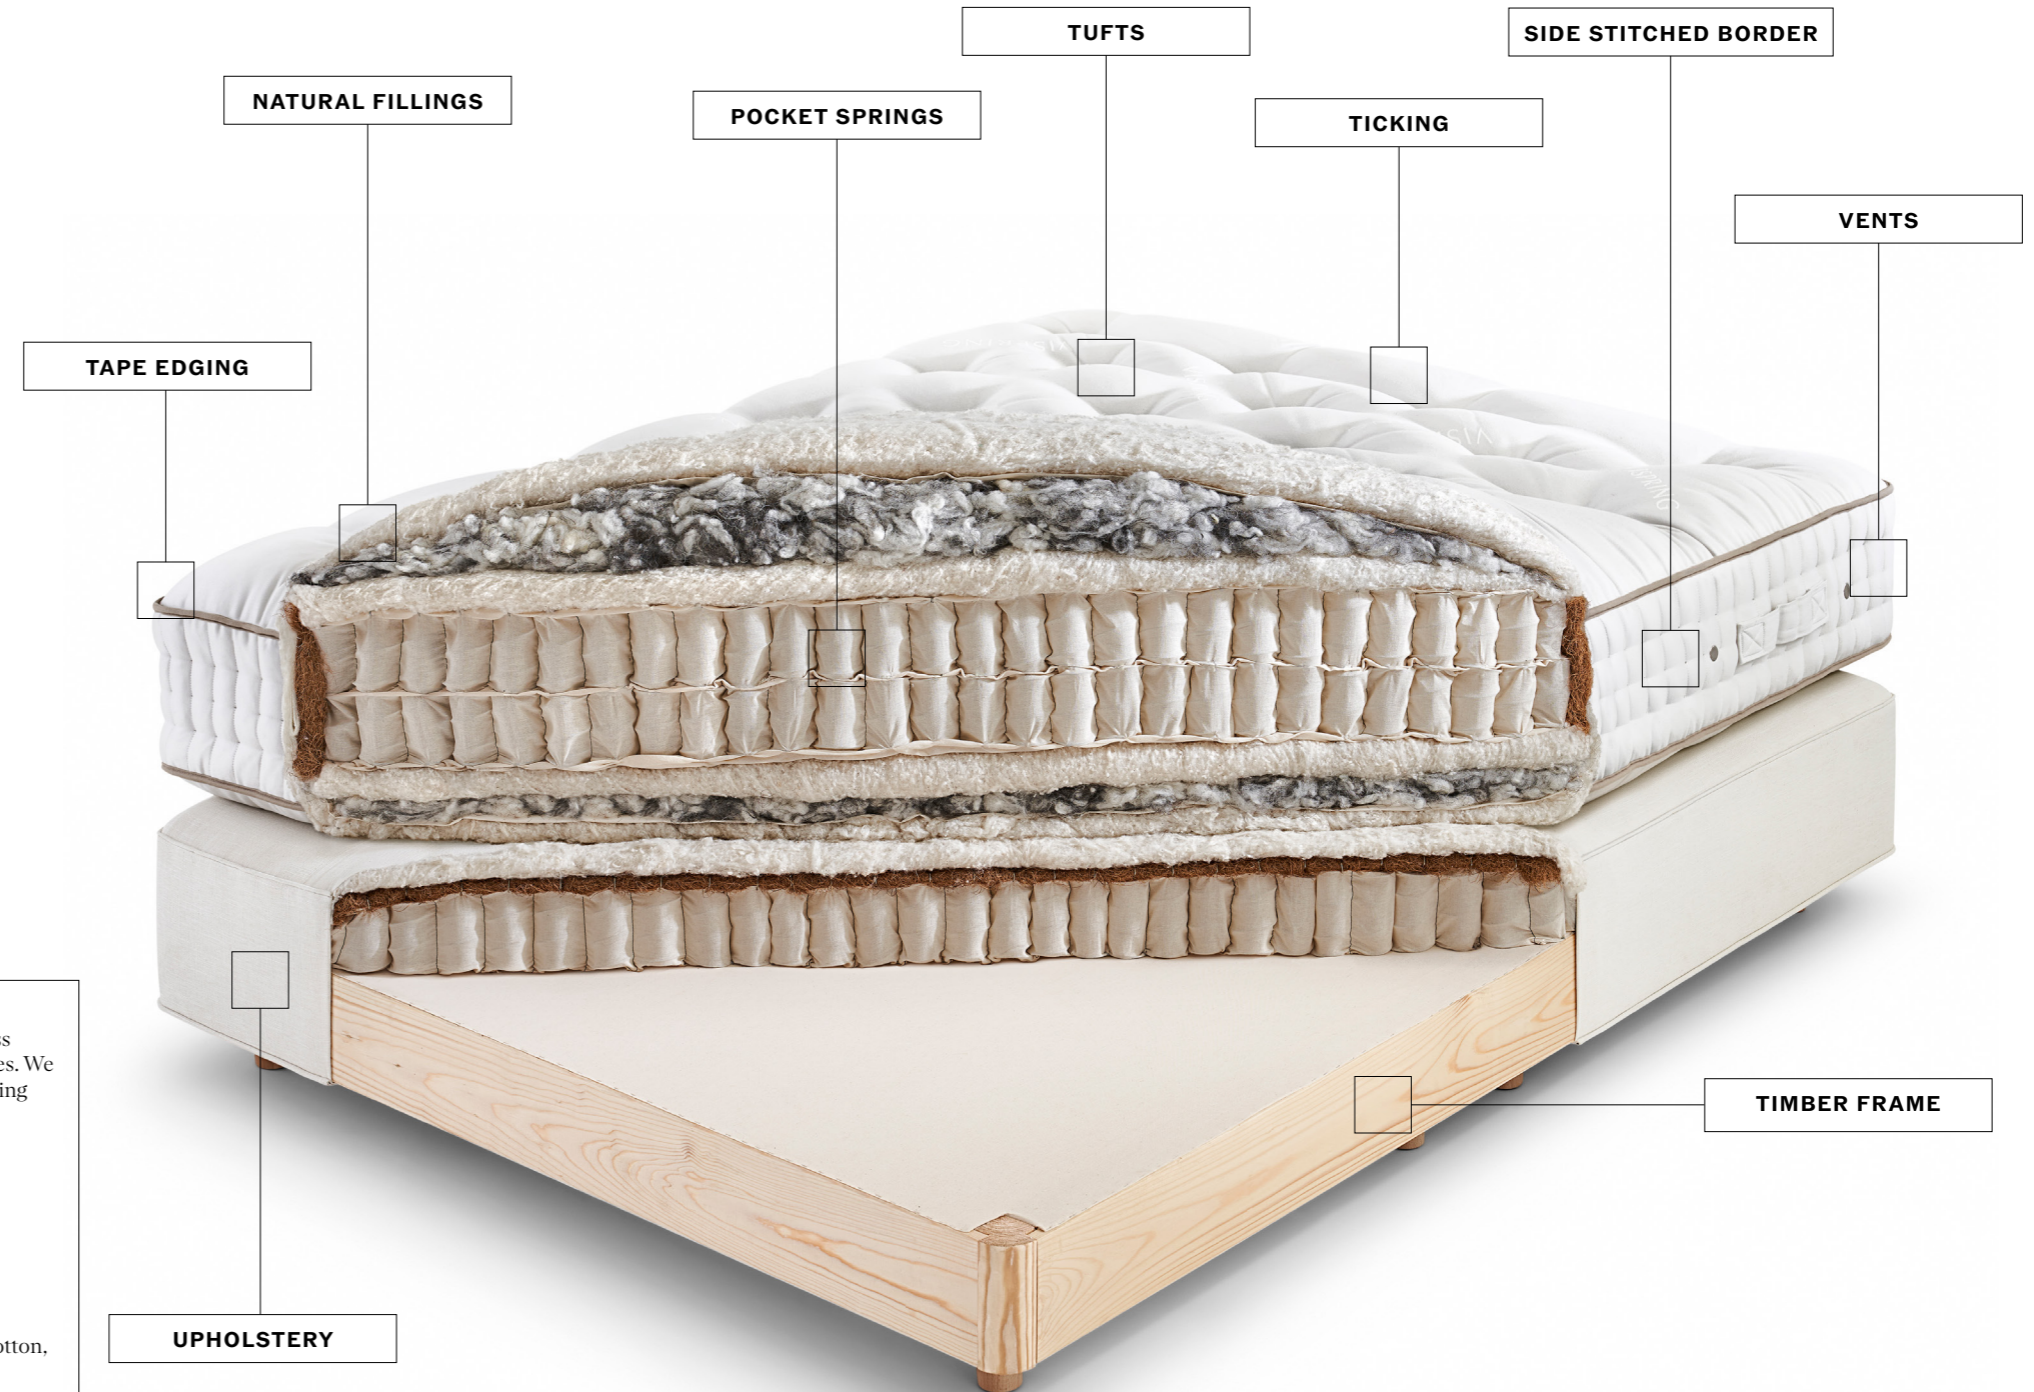

Discover the right tension for your body.

This is about support. Tension is based on your body weight and comes from the springs inside the mattress. The right tension keeps your spine properly aligned, ensuring deep, restorative sleep.

			
Up to 11 stone 70kg	11-16 stone 70-102kg	16-20 stone 102-127kg	Above 20 stone 127kg

What's in a Vispring Bed?

As our name suggests, springs are the most important ingredient in the Vispring recipe. They work in harmony with the natural fillings and upholstery to supply a delicate balance of strength, durability and softness.

THE FACTS

TICKING

All our mattresses are covered in high-quality ticking, such as Belgian Damask or Pure Wool.

SIDE STITCHING

Side stitching by hand gives supportive strength to the mattress border.

POCKET SPRINGS

The heart of the mattress and divan constructions are either one, two, or three rows of honeycomb-nested calico pocketed springs.

SOLID TIMBER FRAME

The solid timber frames are crafted from high-quality Northern European softwood and hardwood sourced from well-managed forests and other responsible suppliers.

TUFTS

We tuft each mattress by hand. Evenly distributed, tufts hold the fillings in place.

TAPE EDGING

We use meticulous care to close the mattress panel and border leaving no raw fabric edges. We finish the edge with white, grey, or beige piping (depending on the mattress collection).

VENTS

The vents running along the borders of our mattresses ensure fresh airflow and allow moisture to escape.

NATURAL FILLINGS

All Vispring mattresses are filled with the finest-quality natural materials like wool, cotton, horsehair, cashmere, and silk.

UPHOLSTERY

The divans are hand-upholstered in fabrics from the Vispring fabric collections or the customer's own material (C.O.M).

BEDSTEAD WOOL MATTRESS PAD

The Vispring wool mattress pad provides protection between your Vispring mattress and the base of your bed frame, extending the life of your mattress and enhancing comfort.

SKIRTED WOOL MATTRESS PROTECTOR

Made using a breathable 100% BCI cotton cover and plush 100% British wool fill. Box quilting adds comfort, protection, and temperature regulation. Available in standard and custom sizes.

MATTRESS PROTECTOR

Use a mattress protector to maintain your mattress' condition. The Vispring quilted protector has a percale cotton cover and Pure New Wool filling.

DIVAN SKIT AND FITTED DIVAN COVER

Fitted covers and skirts are a good way of changing the look of your divan to a fabric of your choice.

DIVAN MANTLE

The mantle is an elegant way of concealing the gap between linked divan bases.

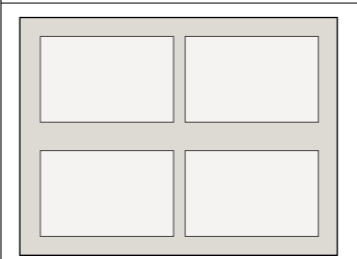

CUT-OUT CORNERS

We can make your mattress with cut-out corners so it fits in four-poster bed frames.

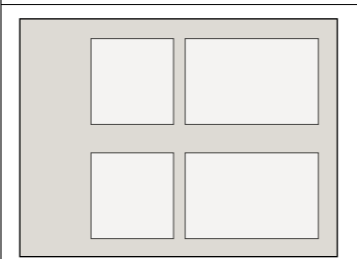

DRAWER CONFIGURATION OPTIONS

STANDARD DRAWERS

Compact half-size drawers positioned at the head of the bed, perfect for use alongside bedside tables. Ideal for storing smaller items while maintaining easy access.

CONTINENTAL DRAWERS

Full-length drawers that run the width of the divan, providing generous storage for larger items such as clothing, bedding, or towels.

FOOTEND DRAWER

Conveniently located at the foot of the bed, these drawers are ideal for storing linens or seasonal essentials.

DRAWERS

The Vispring high (31cm/9.1") divans can be fitted with drawers. We offer three different drawer sizes with multiple configuration options. Please consult with a sales associate for further details.
